The time period for reply, if any, is set in the attached communication.

DETAILED ACTION

1. This Office Action is responsive to communication filed on 08/10/2009.

Response to Amendment

2. The proposed amendments to claims will not be entered because they would require further search and/or consideration. For example, claims 19 and 30 now recite "wherein the inserting section inserts the identification information into a point where the streams acquired by the stream acquiring section have their stream data discontinued so that a unit in the first stream is incomplete." The previous underlined arrangement were not previously defined, thus making the amended claims more specific and necessitating further search/or consideration. Independent claims 1 and 14 thus would require further search and/or consideration.
